~A MAGICAL ADVENTURE FOR  
FUTURE MAGIC MAKERS AND  
ECOLOGISTS ~

BY MICHELLE "MARI GOLD" SEABERG + "MAGNOLIA" MIN YOUNG HUH

CONGRATULATIONS  
ON STARTING YOUR JOURNEY  
TO BE A WITCH

This book will help you learn all you need to know about the basics of Herbology. I am your familiar Funguy the Fungi and I am here to guide you with helpful instructions and hints so be sure to look out for me!

You can complete this book alone, or with the help of a friend or friends. I also recommend having your handy-dandy witch mentor (parent, teacher, or guardian) around to help out.

Some of the pages are all for you to create the witch you want to be and write about your studies. On these pages, the sky's the limit and you can do no wrong! However, on pages with herbology activities, there are real answers to find. Look for the Brainy Bee image in the corner to mark these pages. Turn to pages 24 through 27 for the answers to these activities!  
Have fun!

**To complete this  
workbook, you will need:**

- A pencil, pen, or marker
- Scissors
- Tape

(EITHER WRITE OR DISCUSS  
WITH A MAGICAL PAL)

WHAT'S YOUR FAVORITE PLANT  
+ WHY? DESCRIBE ITS SHAPE,  
WHAT DOES IT FEEL LIKE?  
TASTE? SMELL? TELL A  
STORY WITH IT. HOW  
ARE YOU SIMILAR  
WITH IT?  
DIFFERENT?

PERFECT! NOW... TIME  
FOR YOUR FIRST HERBOLOGY  
COURSE. TO UNDERSTAND  
PLANTS ITS IMPORTANT WE  
ALSO UNDERSTAND WATER  
AS WATER IS NEEDED FOR  
ANY PLANT TO GROW!

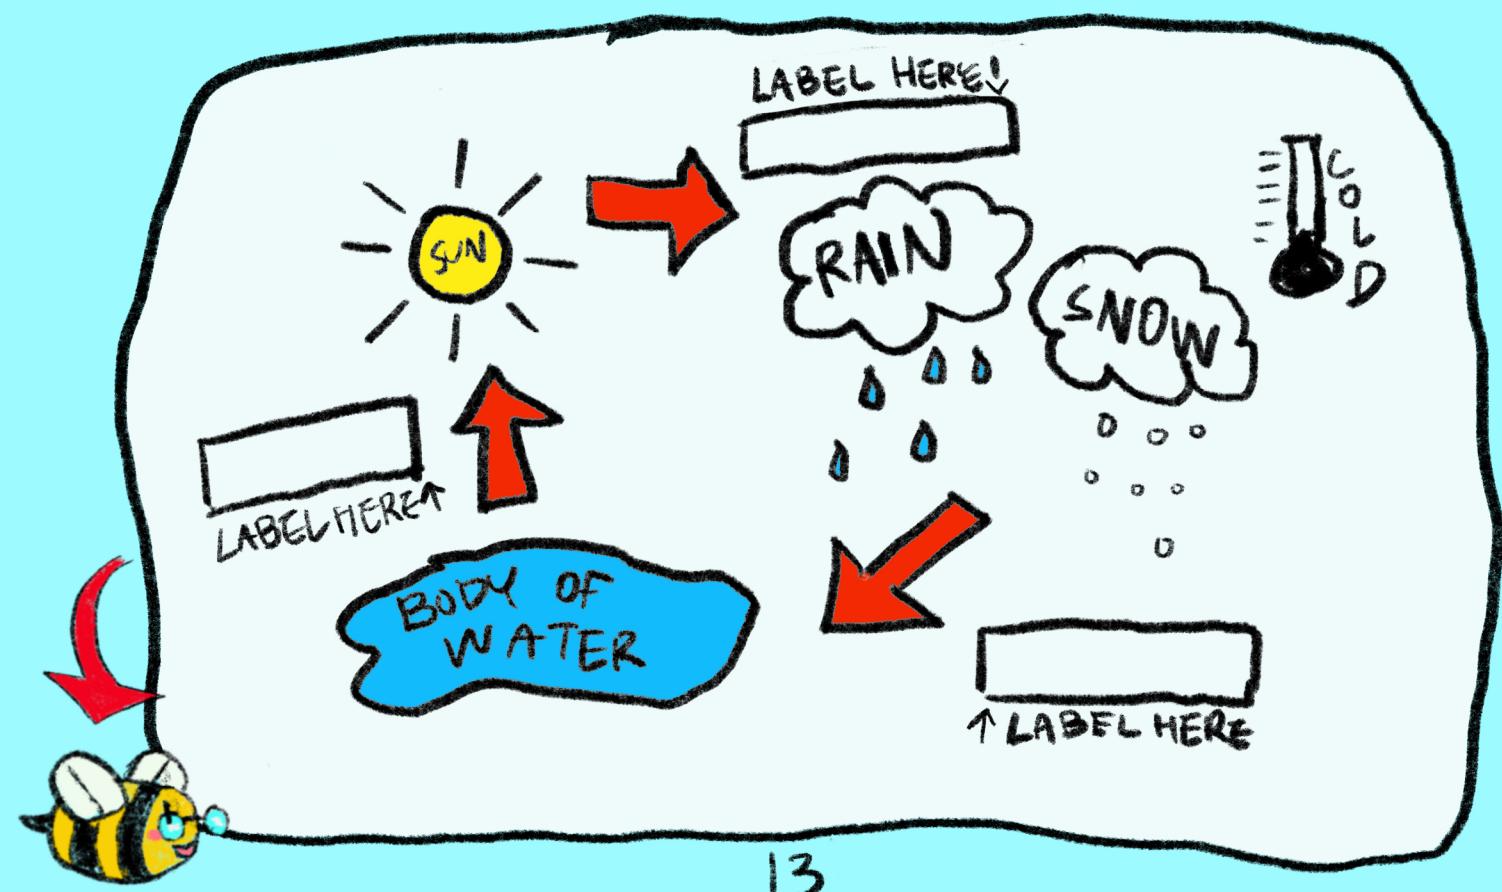

Let's understand where water comes from! You have to get to know it before it tells you its secrets.

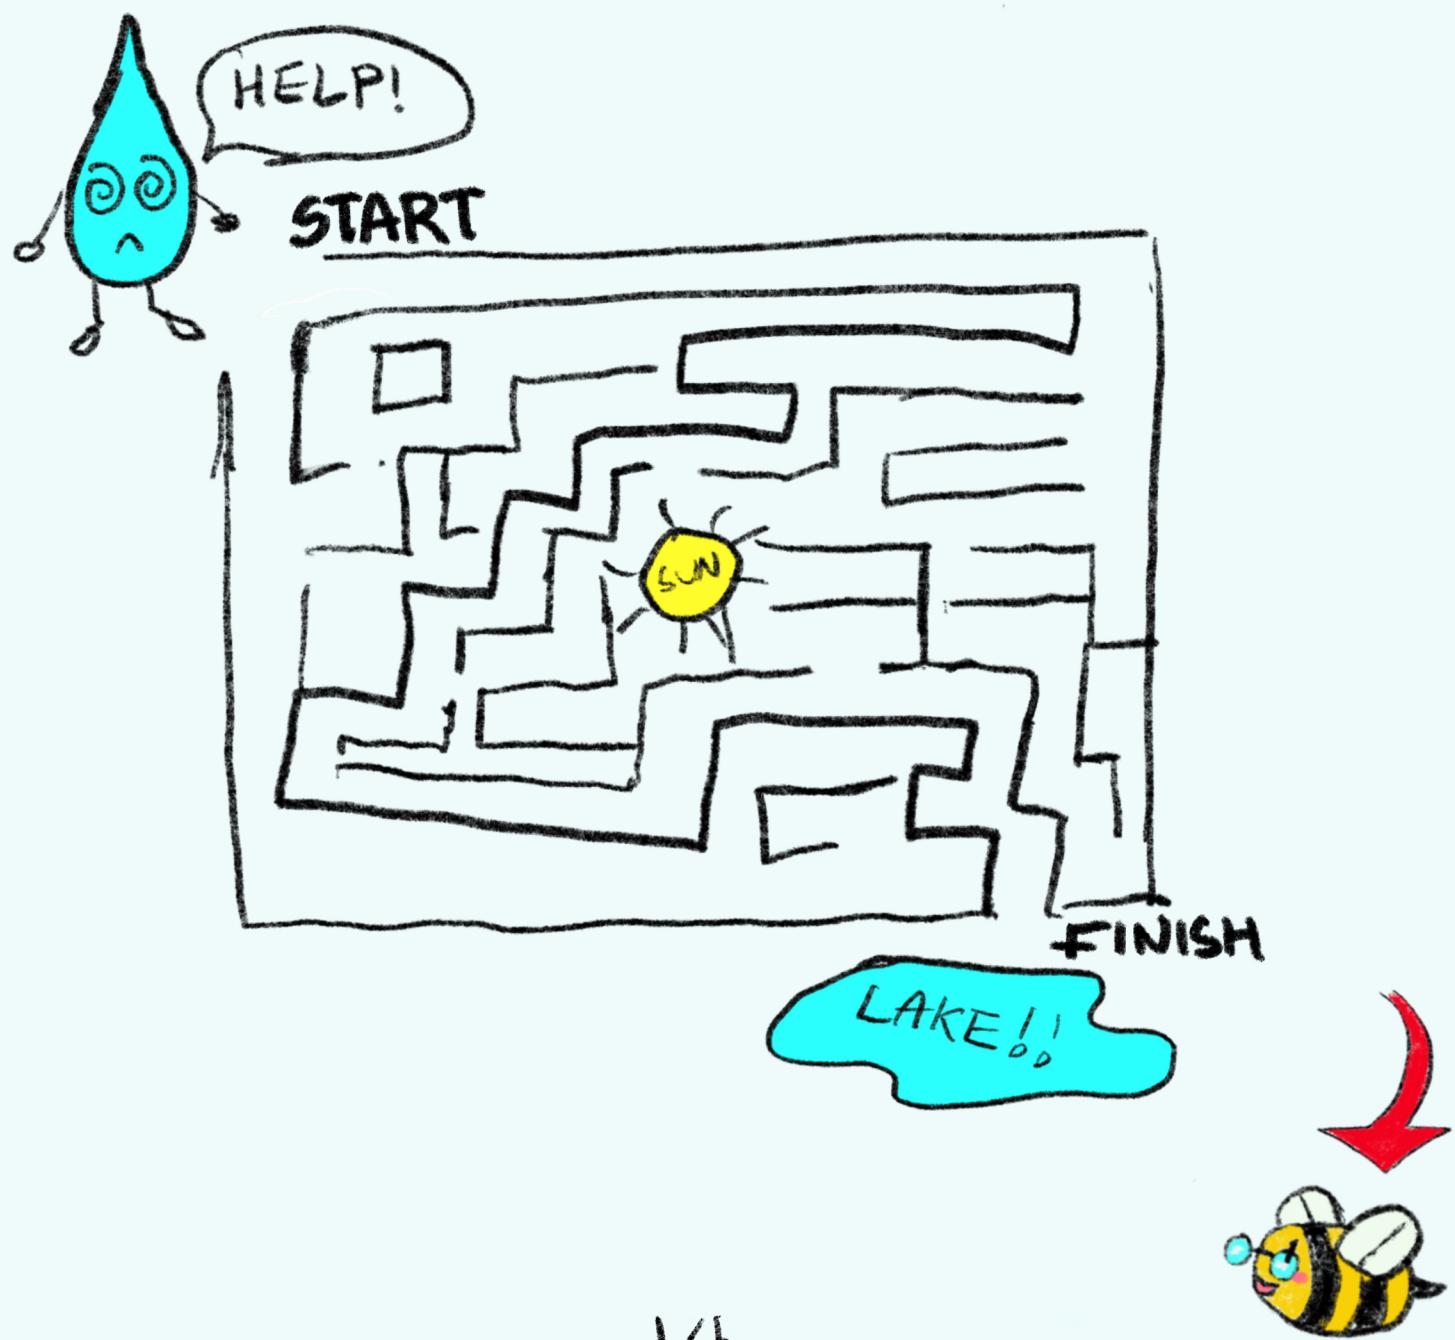

This is the water cycle! Water is a liquid and it exists in the ocean, rivers, lakes, ponds, and more. When the sun heats it up and turns into gas. This is called evaporation. This gas, called water vapor, rises up into the sky where it gets cold again. The water vapor then goes through a process called condensation and turns back into water. The water gathers in clouds. When the clouds get too heavy, the water falls back to the ground as either rain or snow. This is called precipitation. Once the water is on the ground it can once

again be warmed up by the sun and evaporate.

## TRY TO LABEL THE WATER CYCLE!

OH NO!! DEWEY THE RAINDROP  
LOST HIS WAY IN THE WATER  
CYCLE - HELP HIM FIND HIS  
WAY!

MANY PLANTS ARE USED AS MEDICINE. FROM STOPPING POISON IVY, TO HELPING YOUR HEART, PLANTS CAN HAVE SO MANY USES!

FOR YOUR NEXT CLASS, HERBS + MEDICINE, CAN YOU FIND THE NAMES OF THESE PLANTS IN THE WORD SEARCH?

WORDS CAN BE UP,  
DOWN, FORWARDS,  
BACKWARDS AND  
OVERLAP!

DISCLAIMER: ALWAYS CONSULT  
YOUR CARE TAKERS AND DOCTORS  
BEFORE USING A PLANT AS MEDICINE
